

# La Joya

## Ring Size Guide

Measure the  
following box  
(1" by 1")

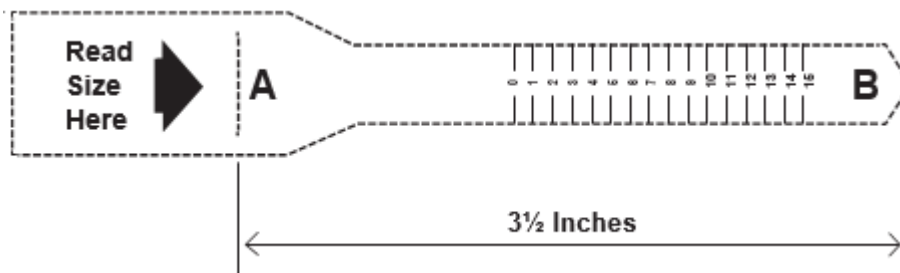

### How to Use this Guide

Before proceeding, use a ruler to confirm the printed paper size of the box to the right (1 Inch Square). If the measurement is not accurate, the ring size measurement will not be precise.

### Measure Your Finger:

1. Cut out the ring sizer.
2. Cut a slit for Slot "A" along the dotted lines.
3. Wrap the sizer around the finger where the ring will be worn. Make sure the numbers are facing out.
4. Pull the pointed end Tab "B" through Slot "A" until the sizer is snug. Make sure to allow size for your knuckle. If your knuckle is size in between the two.
5. The number aligned with Slot "A" is your ring size.
6. If the measurement lands between two numbers, your size is a half-size.

Example: If your measurement falls between 5 and 6, your ring size is 5 1/2.

### **PLEASE NOTE:**

This printable guide is intended to serve as a reference, and we recommend that you order our plastic sizer which will help make you confident.

Make sure to consider width when choosing a ring size. The wider the band, the tighter it may feel, meaning you may need to go up by a half size. If your measurement falls between sizes, order the bigger size.
